Subject: RE: Revised document

AC – I was talking about the odor protocol for responding to community odor complaints. Is the document you sent me that document?

Subject: Revised document

I have worked on revising the trigger document. I need to expand Attachment 1 (justification of 1 ppm), but have addressed most of the other comments and suggestions. Please begin reviewing this document and advise me of any items you

see that still need to be addressed. I will send another revision after I complete the prose for justification of 1 ppm. My brain is done for the day. I also have added the conversion factors for the PID.

Thanks for all your help and input.

David
